EXHIBITION HALL

FOR A LONG TIME,
the **Building of Caja
Rural de Aragón**

has had the only continuously functioning exhibition hall in Zaragoza. It took in painters of every artistic trend and school who wished to use this venue. More than one thousand exhibitions have been held there during 70 years of its activity. Nowadays, the Exhibition Hall of this historical

building, being faithful to the traditions initiated in the 20th century, keeps doing its share by promoting art and culture. The venue can be entered from Cuatro de Agosto Street, just the way it used to in the past. Nowadays, the gallery and exhibition space is located in the basement. A vaulted room, which is a part of this venue, has once been a wine cellar in the original Palace.

The Foundation of Caja Rural de Aragón has been hosting its artistic seasons, from September to June, in this place. These spaces are safe havens for art and food for your soul. Any business event or presentation set within the art-covered walls of this building will, without a doubt, turn into a unique and unforgettable experience.
